Summary

I worked as an IT Technician in a school for three months. In the course of my work, I was not competitive enough, so I resigned from my job and completed the course of Certificate in Creative Digital Media Design and Production Assistant Training and Certificate in Web Development Training. As a short-term goal, I would like to deepen my technical skills through my work. As a long-term goal, I am willing to become a developer. I hope you can provide me with another opportunity to practice what I've learned.

Technical Skills

- Understand and can use 3D and 2D software, like Blender.
- Proficiency in open source software, such as LibreOffice, Inkscape, Kurta, GIMP, OpenShot, etc.
- Knowledge in React JS, JavaScript, HTML and CSS programming language.
- Frequent user of Microsoft Office programs.
